Password / ID Login Instructions

Type your username and password in the boxes on the login screen. Capitalization doesn't matter, so either upper or lower case is ok.

Click OK or press Enter. There will be a second login screen after the first one. On that screen, leave the username as Willard and leave the password blank. Just Click OK or press Enter. This will be the same every time you login.

The next screen will tell you that your password has expired. This is correct. IT IS VERY IMPORTANT THAT YOU CLICK "YES" ON THIS SCREEN. If you click "No" your account could be locked and you will have to have it cleared by the librarian or the network administrator.

After you click "Yes," you will see a screen where you need to type a new password of your choice. You have to use at least 5 characters (letter and/or numbers). YOU MUST RE-TYPE THE SAME PASSWORD IN THE 2ND BOX OR IT WILL NOT WORK. It is a good idea to use the same password that you use for other things, like email, facebook, etc. This will make it easier for you to remember it. After you have typed your new password TWO TIMES, click OK or press Enter to continue.

There are a few things that are very important to remember about your username.

- Do not leave a room with a station logged in. Any mischief that takes place will be reported as the person logged in and any consequences will be served by the person who is logged in.
- Keep your password secure and don't share it with anyone. If someone doesn't have a password or theirs doesn't work they need to see a teacher or administrator to fix the problem.
